

March 16, 2020

Dear AnazaoHealth Partners and Patients,

AnazaoHealth has implemented, and continues to implement, measures to respond to the global concern for the Novel Coronavirus (SARS-CoV-2) and the resulting disease (COVID-19). As the Coronavirus affects more regions around the world, AnazaoHealth is monitoring the situation closely, and establishing protocols and guidelines to minimize the impact whenever possible to our employees, our sites, our business partners and our supply.

We are committed to supplying our customers in all markets served and, as such, are actively monitoring our supply chain for potential impacts due to escalation in the outbreak of the virus.

We are following guidance outlined by the WHO, CDC and governments of impacted countries, many of which have made hygiene and safety recommendations and implemented transportation restrictions. We have preparedness plans and are ready to act per their local scenarios, as necessary.

Supply Chain

AnazaoHealth is committed to ensuring patient and practitioner access to our products and as has performed a general risk assessment of our product's critical components and the raw materials in the supply chain. What we have learned and been able to determine in our evaluation is that our supply chain is generally secure.

However, we are taking all necessary measures to mitigate risk including finding alternative suppliers, inventory control (increased buffer stock currently at +5 months) and have engaged in continuous communication with our vendors.

We have not experienced any significant disruption to the availability of our products to date. We continue to constantly monitor our raw materials supply and will provide updates as appropriate.

Travel and Meetings

For our employee's safety and wellbeing, and in anticipation of your organization implementing guidelines as well, we are stopping all air travel. We will leverage virtual meeting technology where appropriate. We will also be restricting access to both our sites except for regulatory agencies.

We thank you for your patience as we work through this challenging time. We will update you as this situation evolves and continue our commitment to meeting your 503A and 503B compounding needs. In addition to email updates our corporate website (www.anazaohealth.com) home page will include all updates. For additional details, please feel free to contact us at info@anazaohealth.com

Yours sincerely,

T.J. Bresnahan
President
