Re: AnazaoHealth Response to the Novel Corona virus

Dear AnazaoHealth Corporation Partners,

We are writing to provide an overview on AnazaoHealth's response to the global concern for the Novel Coronavirus (SARS-CoV-2) and the resulting disease (COVID-19). We are committed to supplying our customers in all markets served and, as such, are actively monitoring our supply chain for potential impacts due to escalation in the outbreak of the virus.

As the Coronavirus affects more regions around the world, AnazaoHealth continues to monitor the situation closely, establishing protocols and guidelines to minimize the impact whenever possible to our employees, our sites, our business partners and our supply. We are following guidance outlined by the WHO, CDC and governments of impacted countries, many of which have made hygiene and safety recommendations and implemented transportation restrictions. Our sites have preparedness plans and are ready to act per their local scenarios, as necessary.

Supply Chain

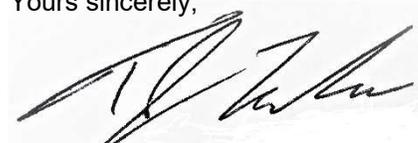

AnazaoHealth is committed to ensure access to our products and as such we have performed a general risk assessment of our products and the raw materials in the supply chain. What we have learned and been able to determine in our evaluation is that our supply chain is generally secure. However, we are taking all necessary measures to mitigate risk including finding alternative suppliers, inventory control, and have engaged in continuous communication with our vendors. We have not experienced any significant disruption to the availability of our products to date. We continue to monitor our raw materials supply and will provide updates as appropriate.

Travel and Meetings

For our employee's safety and wellbeing and in anticipation of your organization implementing guidelines as well, we are limiting travel. We will leverage virtual meeting technology where appropriate. We will be restricting access to our sites with the exception of regulatory agencies.

We thank you for your patience as we work through this challenging time. We will continue to update you as this situation evolves and continue our commitment to meeting your needs. For additional details, feel free to contact us at info@anazaohealth.com.

Yours sincerely,

TJ Breshahan
